

Pt-600-O-1-2

ORP sensor

Applications

Waste Water Treatment

Process Water

Description

Pt-600-O-1-2 is a combination electrode with platinum ring for ORP measurement. The sensor is liquid filled, refillable and has a high blocking resistance.

Pt-600-O-1-2

ORP sensor

Technical data

Measuring parameter

ORP -1500.. +1500 mV

Mechanical construction

Junction Ceramic
Shaft material Glass
Mechanical Construction 160 mm
Electrode material Platinum
Reference system Ag/AgCl/KCl 3M
Mechanical connection S7 plug
Electrical connection 2 pole screw connection

Storage version

Article number	Name	Description
24135200K	Pt-600-O-1-2	Platinum sensor: Ceramic, KCl 3M, S7 plug, 160 mm
